EPISTLE

Our Mentor

Despite the enormous progress that India has made in spreading the reach of education, a vast population of our young children still do not have the access to quality education. If the children do not get educated, it deprives the country of a bright future. We suffer from lack of prosperity, quality life, and the formation of human capital in the absence of assured quality education. In this context the establishment of The International Delhi Public School in Jammu by a dedicated and passionate group of individuals is an excellent news. The state of Jammu and Kashmir especially the Jammu region has unique geography, culture and polity. One and all should welcome a sincere effort in shaping the future of young children from this part of the country. There is no dearth of schools. There is a shortage of centers of excellence. It would be a challenge and responsibility for IDPS to distinguish itself in imparting joyful, relevant and value-based education. I am sure that people behind this project are sensitive to these needs. The lofty vision and core values of the management of IDPS will add a very refreshing chapter in education. The imperatives of a good school are modern infrastructure, committed and well-trained faculty and transparent and accountable management. I'm happy that the IDPS management possesses these core ingredients. I sincerely hope that the students and parents in Jammu will look forward to this school with excitement. My best wishes and blessings to the management, Principal and all the stakeholders of IDPS.
